D.O.B:

02/SEP/2000

I'm a self-motivated and passionate individual who has gained a significant amount of knowledge and experience in vast areas of specialization in the digital world. I possess interpersonal skills in areas of problem solving, leading and managing others, together with the ability to build and maintain both internal and external relationships at all levels.

Notably, I display an exceptional range of skills with particular strength in computer programming, design and networking.

Key Skills & Abilities

INTERPERSONAL

- Ability to inspire and motivate others by providing clear direction and communicating a compelling vision.
- Works effectively under pressure through the ability to prioritize and establishing achievable goals.
- Creative and imaginative thinker who strategically proposes innovative ideas or solutions in any given situation.
- Possesses the ability to teach new skills and competencies to others and gives constructive feedback when mentoring.

TECHNICAL

- Specialist in computer programming and software development with deep understanding and knowledge of the C# language and its core notions, and appreciative of JAVA and C++, among other programming languages.
- Familiarized and gained recognizable skills within the Microsoft's .NET Framework and its technologies, which pivot around software development.
- Conversant with database servers and essentials namely MySQL, SQLite.NET and Microsoft SQL Server.
- Web applications development with Microsoft 's ASP.NET MVC technology.

OTHER

- Proficient communication skills in English, Ndebele and Shona, both verbal and written.
- Majoring in creative content designing i.e. graphics and rudimentary websites.

Academic Profile

BTECH IN COMPUTER SCIENCE *(Aug 2019 - Present)*

Currently undertaking studies for my four-year Bachelor of Technology Honour's Degree in Computer Science which commenced in August 2019, at the Harare Institute of Technology.

HIGH SCHOOL EDUCATION *(Feb 2017 – Nov 2018)*

Awarded the ZGCE Advanced Level certificate by the ZIMSEC examination board after a successful study in the subjects Pure Mathematics, Computer Science and Statistics at the examination center Glen View 1 High School, Harare.

SECONDARY SCHOOL EDUCATION *(Jan 2013 – Nov 2016)*

Awarded the ZGCE Ordinary Level certificate after a successful sitting and outcome for all the registered ZIMSEC examinations at Marist Brothers High School, Dete.

NATIONAL FOUNDATION CERTIFICATE *(Oct 2014)*

In addition to my secondary education, I was presented with the National Foundation Certificate in Computer Operations and Packages by the HEXCO examination board, under the Ministry of Higher & Tertiary Education, after a successful outcome in the respective exam.

Achievements

- Established a home-grown academy which teaches and nurtures young minds with all basic skill sets they require in the technological world.

- Attended and participated actively in the Student Start-up Summit Launch and Digital Transformation Conference hosted by the Harare Institute of Technology.

Interests & Hobbies

- Enjoys interacting with fellow tech-enthusiasts, discussing and sharing skills and knowledge.
- Researching more outside my field of specialization.
- Reading and watching documentaries and following online tech-blogs.
- Keen follower of science-fiction films and comedy sitcoms.
